Compressing Videos within Windows XP

- 1. Create a folder on the C:\ drive called "Compressed Videos".
- 2. Navigate to the location of the full size .avi video that you wish compress and copy (*NB copy, do not cut or move*) the video to the "*Compressed Videos*" folder.
- 3. Select Start | All Programs | Accessories | Windows Movie Maker.
- 4. In the Windows Movie Maker program, select the "*Import Video*" option from the left hand pane (*Movie Tasks, 1. Capture Video*). Navigate to the "*Compressed Videos*" folder and select the full size .avi video that you have just copied to that location.

- 7. In the Windows Movie Maker program, select the "Save to my computer" option from the left hand pane (Movie Tasks, 3. Finish Movie).
- 8. Select an appropriate filename and enter it in "1. Enter a filename for your saved movie.". It is recommended that the filename is identical to the filename of the original uncompressed .avi video except that you add the word "Compressed" as a suffix in the above example this will therefore be "M20140710_004719__RM Compressed". In "2. Choose a place to save your movie" use the "Browse" button to navigate to the "Compressed Videos" folder.

Save Movie Wizard	×
Saved Movie File Enter information for your saved movie file.	<u> </u>
1. Enter a file name for your saved movie. M20140710_004719RM Compressed

- 14. Check that the video plays correctly.
- 15. Navigate to the "*Compressed Videos*" folder and you will see a compressed version of your video which should be of a file-size that is less than 5MB and hence can be sent as an attachment to an email.
